# Buğra Göksu

Adana, Türkiye • +90 531 727 06 18 • bugragoksu2@gmail.com • linkedin.com/in/bugragoksu • yazilimci.si

Senior mobile engineer with six years of Flutter in production, from a three-person startup to a marketplace with millions of users. Sole owner of a car rental app on iOS and Android today.

## Experience

**Yolcu360** Remote, Türkiye
*Senior Mobile Developer* Dec 2025 – Present

- Own the Yolcu360 car rental app on iOS and Android as the sole mobile engineer, from architecture to store releases.
- Re-architected a legacy Flutter codebase to MVVM with Clean Architecture, replacing tightly coupled code with testable layers.
- Built AI-agent monitoring over GA4 (BigQuery), Crashlytics and Clarity that turns funnel drop-offs and crashes into fixes.
- Designed an AI-driven delivery pipeline taking each ticket from analysis and planning to tested, reviewed pull request.
- Set up CI/CD with the DevOps team, automating builds and releases for both platforms.

**letgo** Istanbul, Türkiye
*Senior Mobile Engineer* Jan 2024 – Dec 2025

- Rebuilt the letgo marketplace app from scratch in Flutter as one of two senior engineers on a seven-person mobile team.
- Owned the chat and payment flows of an app serving millions of users.
- Mentored junior engineers, ran code reviews, wrote technical design documents and interviewed candidates.

**Paraşüt** Istanbul, Türkiye
*Senior Mobile Application Developer* Jul 2023 – Jan 2024

- Rehired at senior level to migrate the native Paraşüt accounting app to Flutter, module by module inside the live app.

**Delivery Hero Tech Hub** Istanbul, Türkiye
*Software Engineer* Sep 2022 – Jun 2023

- Built a social commerce app in a two-engineer Flutter squad within a six-person mobile group.
- Implemented features with Firebase and GraphQL under unit and widget tests, and contributed to CI/CD.

**Paraşüt** Istanbul, Türkiye
*Mobile Application Developer* Aug 2021 – Aug 2022

- Developed Flutter apps for small businesses, including Atlas Asist and Bizmu, alongside Swift work.

**Huma Breath** Istanbul, Türkiye
*Mobile Application Developer* Apr 2020 – Aug 2021

- Co-built the breathing exercise app from scratch in Flutter and Firebase as one of two engineers at a three-person startup.
- Held equity through the company's acquisition by GymStreak.

**Kartaca** Istanbul, Türkiye
*Software Developer Intern* Jun 2020 – Aug 2020

## Side Projects

- **Pumpfy** (getpumpfy.app): AI training and nutrition coach, live on iOS and Android with paying subscribers. *Flutter.*
- **Orbett** (orbett.dev): Voice-driven personal agent on a home Mac with a native iOS app and generative UI. *SwiftUI, Swift on Server.*
- **Replikla** (replikla.com): Web app for dubbing film scenes that scores takes and renders video in the browser. *Next.js, Web Audio.*

## Leadership & Community

- Organizer, GDG Adana; Co-Organizer, GDG Mersin; Organizer, DSC Turkey Flutter Team (Flutter hackathon).
- Regular speaker at GDG and DevFest events across Türkiye.

## Education

**Mersin University** Mersin, Türkiye
Bachelor of Science, Computer Engineering; completed while working in industry 2017 – 2023

**ESTG, Politécnico do Porto** Portugal
Erasmus exchange, Computer Engineering Mar 2021 – Jul 2021

## Skills

**Mobile:** Flutter, Dart, Swift, SwiftUI, native–Flutter integration, MVVM, Clean Architecture, state management
**Platform:** Firebase, Crashlytics, GA4, BigQuery, GraphQL, REST, CI/CD, unit and widget testing
**AI engineering:** Agentic coding workflows, MCP integrations, AI-assisted code review and QA automation

**Languages:** Turkish (native), English (professional working proficiency)
